# **WARNING**

Warning. Not suitable for children under three years. Small parts. Long Net. Strangulation Hazard. Failure to follow these safety instructions may result in serious injury or property damage and will void the warranty.

A responsible adult must supervise and ensure that all players know and follow these rules for safe operation of the product.

To ensure safety, do not attempt to assemble this product without following the instructions carefully. Check the entire box and inside all packaging material for parts and/or additional instruction material. Read material carefully and identify parts using the hardware identifier and parts list in this manual.

Proper and complete assembly, use and supervision are essential for proper operation and to reduce the risk of accident or injury. A high probability of serious injury exists if this product is not installed, maintained, and operated properly.

Children should be supervised at all times to ensure they do not climb, mount, sit, lean upon, adjust, move or misuse the stand in any way. Failure to follow this warning poses a risk of serious injury or property damage.

Do not use this product for commercial purposes. This product is designed for outdoor, domestic use only. If using a ladder during assembly, use extreme caution. Pay attention to all instructions and guidance provided with the ladder.

Check the base for leakage before each use. Slow leaks could cause the product to tip over unexpectedly.

Check all parts for wear or damage before each use. Do not use if any parts appear broken or damaged.

Do not use any other fixings or attachments not provided with the set. These may not offer the same strength or stability and can lead to accident or injury occurring.

Fit the pole sections properly and ensure all parts are securely tightened. Failure to do so could allow the pole sections to separate during play and/or during transport of the product.

Climate, corrosion or misuse could result in product failure.

Two people are needed for assembly. Failure to follow this warning could lead to serious injury or damage to property.

Most injuries are caused by misuse and/or not following instructions. Use caution when using this unit. Do not hang on the rim or any part of the product including backboard, support braces or net.

This basketball stand is not designed for formal match/competitive use. "Dunking" is not allowed since serious injury could occur if teeth/face come into contact with backboard, rim or net.

Do not slide, climb, shake or play on base and/or pole.

After assembly of the base is complete, fill product completely with water or sand. Never leave product in an upright position without filling base with weight, as product may tip over causing injuries.

When adjusting height or moving product, keep hands and fingers away from moving parts.

Do not allow children to move or adjust product.

During play, do not wear jewellery (rings, watches, necklaces etc.) Objects may entangle in net.

Only mount the product on a dry, flat, even surface. The surface beneath the base must be smooth and free of gravel or other sharp objects. Punctures cause leakage and could cause product to tip over.

Keep organic material away from pole base. Grass, litter, etc. could cause corrosion and/or deterioration.

Check pole product for signs of corrosion (rust, pitting, chipping) and repaint with exterior enamel paint. If rust has penetrated through the steel anywhere, replace the pole immediately.

Do not use product during windy and/or severe weather conditions; product may tip over. Place product in the storage position and/or in any areas protected from the wind and free from personal property and/or overhead wires.

When moving product, use caution to keep mechanism from shifting.

Do not allow water in tank to freeze. Empty the tank completely before storage.

While moving product, do not allow anyone to stand or sit on base or have added ballasting on base.

Do not leave product unsupervised or play on product when it is moving.

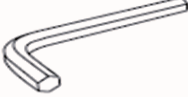

Use Caution when moving product across uneven surfaces. System may tip over.

Never hang or swing from the product.

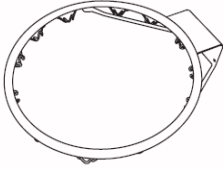

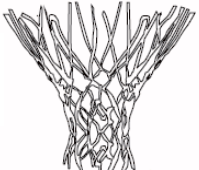

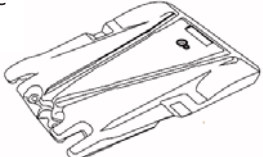

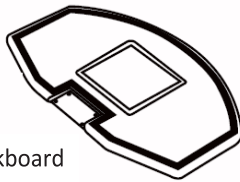

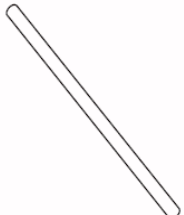

When positioning the product, ensure sufficient space for foreseeable future. Do not mount under any live electrical wires, utilities or drains.

Do not use this product for anything other than its intended purpose. Misuse can result in serious injury or property damage.

# HARDWARE

A) Short Hex Bolt with Washer x 1	
A-1) Set Screw x 1	
B) Long Hex Bolt with Washer x 1	
C) Small Hex Bolt with 2 Washers and Nut x4	
D) Socket Button Head with Washers and Nut x4	
E) Tension Knobs x2	
F) Hex Key x1	
G) Spanner x1	

# COMPONENTS

<p>1. Top Pole(x1)</p> 	<p>6. Wheels (x2)</p> 
<p>2. Centre Pole (x1)</p> 	<p>7. Hoop (x1)</p> 
<p>3. Bottom Pole (x1)</p> 	<p>8. Net (x1)</p> 
<p>4. Supports (x2)</p> 	<p>9. Base (x1)</p> 
<p>5. Backboard (x1)</p> 	<p>10. Axle (x1)</p> 

# ASSEMBLY

## Step 1

To build the first part of this assembly;

The Bottom Pole (3)  
Wheels (6)  
Base (9)  
Axle (10)

Align one of the Wheels (6) into the slots on the Base (9). Using the help of another person take the Bottom Pole (3) and place into the front of the Base.

Thread the Axle (10) through the holes; to the Wheel and through the Bottom Pole and through to the second Wheel.

## Step 2

Take both Supports (4) and align the poles up with those on the base, secure the four holes on the base using (D) Bolts.

Then secure to the Bottom Pole (3) using (B) Bolts tightening to secure.

## Step 3

With a person holding the structure fill the base with either water or sand, to give the structure stability.

# ASSEMBLY

## Step 4

Take the Centre Pole (2) and slot over the Bottom Pole (3), ensuring the screw poles are aligned.

Secure into place using the 1 (A) and 1 (A-1) bolts, tighten to secure.

## Step 5

To assemble the Backboard and Hoop.

Place the plate of the Top Pole (1) on the back of the Backboard (5) and then place the plate of the Hoop (7) into the front slot on the Backboard.

Secure all three into place using the 4 Small Hex Bolts (C), tighten to secure.

**NOTE:** Ensure the Backboard is between the two metal parts to help with stability.

## Step 6

Take the Net (8) and hook over the loops.

Now take the Top Pole assembly and slot onto the Centre Pole, align the holes on the Top Pole with those on the Centre Pole and insert the 2 Tension Knobs, tighten to secure into place.

The height can be adjusted using the Tension Knobs (E) by loosening and adjusting the height of the Top Pole, re-tighten when sufficient height is achieved.

**Caution:** Only an adult should adjust the height.

Min height – 1.67m  
Max height – 2.13m
